REMARKS/COMMENTS:

This is evaluation of June 24, 1998 amendment (CMC) submitted by the applicant in support of changes implemented on January 1998 in the manufacturing process of the drug substance

CONCLUSIONS & RECOMMENDATIONS:

This NDA application is recommended for approval from the CMC standpoint, providing that implemented on January 1998 in the manufacture of drug substance will be approved via CMC supplement. The approval letter should specified that the drug product manufactured from the drug substance batches produced with the new process can not be marketed until approval of the supplement. Also, applicant's Phase 4 commitments (see draft letter at the end of Chem. Rev. #6) should be included.
